RACE RIOTS IN CAPITAL CITY

Four Persons Dead, Two Dying and Many Others Injured

LAST NIGHT'S SCENES

Negroes Attack Sentry and Convalescents at Naval Hospital Near White House at Noon Yesterday.

Blazing race hatred turned the streets of Washington into battlefields last night. Surging mobs of blacks and whites proved themselves stronger than the law in the nation's capital. Thrilling scenes occurred in the heart of the city. Pennsylvania Avenue and Seventh Street and at G and Seventh street.

All authority ,represented by the city's police force and the nation's cavalry, infantry and marines, was set at nought.

Four persons are dead, two dying, three probably fatally injured and two score treated at hospitals are the major casualties reported.

The dead are:

Detective Sergeant Harry Wilson, Headquarters.

Randall Neal, colored, 22 years old, 1458 N street N. W.

Thomas Ammstrong, colored.

Kenneth Crall, white at Emergency Hospital.

Private Albert Luck, U. S. M. C., and Detective Sergeant Bernard W. Thompson, Headquarters were fatally Shot.

J. T. Jackson, Headquarters Detective was shot through the shoulder.

Policeman Herman Glassman, No. 8 Precinct, Policeman J. C. Bunn, No. 8 Precinct, Policeman Michael Mahany, No. 8 Precinct and James Richards, white, 68 years old 344 M street S. W. were also shot.

The hospitals of the city were thronged throughout the long night of turmoil with wounded white and negroes.

By early this morning the police system of reports had practically broken down under the continued strain, and only fragmentary and incidental reports of developments in the outlying sections of the city were available.

Just about noon yesterday the negroes gave the first evidence of rioting. Four black in an automobile drove up to the Naval Hospital in Potomac Park, not far from the White House, and fired four shots at the sentry. They then whisked their machine around the street corner and fired four more shots at inmates on the hospital grounds, all of them sick or wounded sailors and marines. The machine and its party got away. The shots all went wild.

Until almost daylight groups of belligerent negroes, armed to the teeth, were touring the streets of the city in automobiles, evading or defying the heavy police and military parole, particularly in the outlying sections.

The downtown section, where a riotuos mob of more than 1,000 had ranged earlier in the night, had by that time been practically deserted.

It was plain as the tumultuous night crept toward dawn that the officials in charge of the police and the military forces in the city were apprehensive concerning what may happen tonight.

Whether a practical condition of martial law will be declared will be determined today.

The temper of the opposing elements indicated beyond any doubt that unless the sternest measures are adopted there will be further and more serious outbreaks.

Police estimated that more than 500 revoivers and hundreds of rounds of ammunition were sold in the District of Columbia yesterday. This situation, according to District Commissioner Brownlow, clearly demonstrates the need of a law for the control of the sale of firearms.

Washington will be policed this afternoon and tonight by greatly augmented provost guard.

Commissioner Louis Brownlow this morning asserted that heavy reenforcements are being planned to prevent a recurrence of the race riots of last night.

"Everything possible will be done," declared Commissioner Brownlow." to prevent men from collecting in dangerous mobs or groups.

WILL STAY OPEN

Fifteen Hundred Saloons Busy At Philadelphia

Philadelphia, July 22.—"Fifteen hundred saloons are open today, and they are going to remain open," declares Neil Bonner, president of the Philadelphia Retail Liquor Dealers' Association.

"If it takes all summer long and assuming that my instructions from Washington do not stay my hands, I will take a number of cases each week before the Court. I will take the situation piece by piece and will get around to each dealer in town who has been open and who remains open. All are violating the law."

This was the trechant declaration of United States District Attorney Francis Fisher Kane immediately after he had seen the statement of the Liquor Dealers' leader, who is awaiting trial on a charge of violating the war-time prohibition act by selling 2.75 beer.

SENATOR SPEAKS ON TREATY.

Missourian Denounces League of Nations as Forfeiture of American Independence

Norfolk, Va., July 22.—Senator James. A. Reed, of Missouri, denounced the proposed league of nations as a forfeiture of American independence, as a vehicle for vested American interests in the protection of their securities in foreign countries, and as means of American enslavement to irresponsible heathen countries, in a speech delivered to an audience estimated at 4,000 at Armory Hall here last night.

He said that while the United States has but one vote in the assembly established under the proposed league, England, through her dependencies, has six votes, and that her dependencies, has six votes, and that the one vote of the United States is equal to that of heathen Liberia, Siam, Hayti and other countries of uncertain standing.

His denunciation of the proposed world peace sheme was received with loud and prolonged applause.

Claude, Texas, July 22.—The Claude News has received the following letter from Bob Carter, a ranchman in the Big end section of the Rio Grande border:

On their return trip seven Mexicans held them up, excepting to rob the oil man. Robbins stopped the automobile and the battle began. Hayes killed six with an automatic revolver. He was slightly wounded, but able to return without help."

Dr. Grayson Reports President Wilson in Weakened Condition

President Wilson was confined to his bed practically all day yesterday by a severe attack of intestinal trouble. He suffered considerable pain and was compelled, on the orders of his physician, to cancel all appointments.

The President was in a weakened condition last night, Admiral Cary Grayson, his personal aid and physician, reported, but he hopes to be able to resume his work this morning. The tremendous amount of work which the President has had on his hands since his arrival from France, coupled with the humidity of the weather here recently, is believed by Dr. Grayson to have constituted the combination of circumstances which made him ill.

"He has spent a very uncomfortable day," Dr. Grayson said last night, "but he may be able to be out tomorrow."

The President was taken sick shortly after he started on a trip down the Potomac River on board the yacht Mayflower, and immediately upon his return to the White House yesterday morning he was ordered to bed.

SOLDIOR DEMANDS TRIAL

General Pershing Blamed For Alleged Brutality.

Washington, July 22.—General Pershing and Brigadier General Hart, officer in charge of the American military administration at Paris, should be brought to trial for the alleged brutal treatment of American soldiers in France by military police, James W. Beckman, New York, former sergeant major changed in a letter to Representative Dallinger of Massachusetts.

"General Pershing should be brought to trial for gross incompetence and negligence that amounts to criminality." Beckman wrote, "'because the crimes of the Paris military police were committed right under his nose and there is no excuse or defense which he can make for not having known of them and for not having them stopped and because similar atrocities were the rule at several other places in France."

FINDS WHISKY MINE

Foxy Old Porcupine Had Made His Luxurious Lair in Midst of Bottles of Old Rye

New Castle, Pa., July 22.—Anthony Bellini went hunting for groundhogs today, and in their hole found a big cache of good old rye liquor. It was in North Beaver township, just south of the city, that Bellini located the "big find."

Knowing the groundhogs' habitat, Bellini started one and chased it to its hole. With a pick the hunter got busy, and after several minutes was surprised to hear the sound of breaking glass when he drove his pick into the earth. And when the odor of liquor assailed him Bellini desisted with the pick and carefully scooped out the hole with his shovel, finding that he had unearthed several bottles of old rye. No longer being interested in groundhogs, Bellini located another "burrow" nearby and began digging for rye. He was again rewarded with the familiar sound as his shovel hit the glass. Fearing to break some of the bottles as he had done in the first hole, Bellini kneeled down and carefully scooped the dirt out with his hands until he unearthed a cache of 10 quarts of liquor.

Not being able to find any other groundhog lairs nearby, Bellini took stock of his booty and found that he had 16 bottles of whisky and, as he stated later, "it was all the game he wanted."

Norfolk, Va., July 22.—Five hundred telephone operators and electrial employees of the Chesapeake and Potomac Telephone Company in Norfolk, who went out on a strike early yesterday, continued their walkout last night, while officials of the company declare that the service, while somewhat crippled, is gradually resuming normal conditions, and will be operating uninterruptedly by tomorrow.

Shortly after the strike began a picket line was established around the main exchange, but there has been no disorder.

The employees are asking for a 20 per cent increase in pay, which was recommended by M. H. Bueler vice president of the company, before the lines were turned back to their owners by the government. RAINS MAKE RIVERS DANGERO

Asheville, N. C., July 22.—Recent heavy rains throughout the mountainous sections of this State have caused inhabitants of the country and cities much concern.

DOGS EAT SPANISH DEAD ON MOROCCO BATTLEFIELD

Tangier, Morocco, July 22.—Ambulances continue to bring Spanish wounded to Tangier in spite of the fact that a large number of their wounded in the outlying military posts have not yet received medical attention, although they were wounded on the 11th and 12th, says a copyrighted dispatch to the Philadelphia Public Ledger. They describe the state of affairs as pitable and give numbers of killed as many hundreds, a large portion of whom, they say, were literally massacred.

The Spanish dead lie unburied in the fields of battle among the rocks and brushwood, and packs of semi-wild dogs have accumulated on the spot, rendering the horrors still worse. Raisuli's tribesmen have removed and buried all their dead, but left the Spaniards to the dogs after robbing the corpses of anything of value that might be on them.

HOLD UP OF U. S. SAILORS

Commander of Cruiser Topeka Makes Full Report to the Navy Department

Washington, July 22.—The Mexican situation occupied the attention of both the Legislative and Executive branches of the Government yesterday.

Tension, which was evident at the State Department when first reports were received Saturday of the robbing of sailors manning a small boat from the American monitor Cheyenne on the Tamesi river July 26, was relieved somewhat by a more detailed account of the incident, received from Commander Finney, of the cruiser Topeka, flagship of the American naval forces at Tampico.

The report said the sailors, who were on official duty, were held up by three men in civilian clothing, two of whom carried rifles, and that, when informed of the incident, the Mexican Government authorities at Tampico had expressed deep regret and promised to attampt to establish the identity of the thieves. It was added, however, that, up to the present, these attempts had been fruitless.

RACE RIOT AT NORFOLK

Four Negroes Victims in Clash During Fete to Colored Troops

Norfolk, Va., July 22.—Six persons were shot, according to the police, during a clash between whites and blacks in the negro sections of the city late last night. Four of the wounded persons are negroes, Patrolman C. H. Sheldon was shot in the foot and Detective B. C. Vick received a bullet in the leg while endeavoring to arrest several negroes. Four negroes were shot, and two of them are expected to die.

The trouble started when the policemen attempted to arrest negroes fighting among themselves. They resented interference of the police, and were joined by other negroes. In a few minutes there was shooting in several places in the negro district.

Last night marked the opening of a week of festivities to celebrate the homecoming of colored soldiers.

During the trouble last night the police closed a street carnival held in connection with the celebration. Fearing a general race riot, the city authorities after calling out all police reserves, appealed to the naval authorities for additional protection One hundred armed sailors and eighteen marines were sent from the naval base to patrol the streets where the trouble started.

TELLS GERMANS TO CONFESS

Editor Says People Are "Guilty to Inmost Souls" for War on Allies

Amsterdam, July 22.—Maximilian Harden, writing in his weekly Die Zukunft, a copy of which has just been received here, scathingly condemns the German people, saying in part:

"The German people ought to confess their guilt, but no such confession is in them. You have permitted yourselves to be influenced by jobbers, comedians, mountebanks and money grabbers.

"You did not desire war? You did desire war, in all its finedish brutality. You worshipped Treitschke and Bernhardi. In your eyes the Prussian blood beast became a superman whose will for might and greed for hegemoney you applauded and adored. You are guilty in your inmost souls, and you have been judged and condemned."

MILK 25 CENTS A QUART

Dennis, Mass., July 22.—Milk is selling at 25 cents a quart on Cape Cod. It's 23 cents a quart when called for. And the farmers declare there is no profit in milk at 25 cents a quart. The reason, they say, is that in years gone by Cape Cod farmers used to cut sedge on the marshes as food for the cattle. Very few of them do this now. Consequently they must get their hay and grain from the West. There has been an enormous advance in the cost of these commodities

RIOTING AT THE CAPITAL

Not since the Knownothing disturbances, over sixty years ago, has Washington been called upon to face such serious conditions as are now in evidence in her streets. Four persons are lying stark and stiff in death, several are dying, numbers have been seriously wounded, as the result of clashes yesterday and last night, and the end is not yet. While every precaution is being taken to bring the reign of terror to a close, the people of Washington are anticipating the coming night with grave apprehension. The whites are aggressive and the negroes defiant, and fearful clashes may further disgrace the city after the shades of evening shall have fallen.

Bitter animosity has been caused by continued attacks by negroes upon white women. These crimes have been going on for several weeks, and although the police have worked early and late in attempts to identify the perpetrators of the outrages, not one has, so far, been positively identified, although several have been arrested on suspicion.

Some of the most warlike scenes have been enacted in the busiest centres of Washington—Seventh street and Pennsylvania Avenue, and Seventh and G streets. In the outlying districts the rioters have had things their own way. Disorderly whites and blacks ride through the city in automobiles and discharge pistols indiscriminately. There has been a great demand for pistols, and dealers in such weapons in the District of Columbia estimate that at least five hundred have been sold during the past twenty-four hours, together with hundred pounds of ammunition.

The rioters are defying the United Staetes government as well as the District authorities, and yesterday they were bold enough to shoot from an automobile at the Naval Hospital, in close proximity to the White House. These disturbers of the peace seem to have no respect for cavalry, infantry, marines nor machine guns.

Washington has been a haven for negroes since the outbreak of the civil war. The city swarms with them, and often the ill manners of some of the race has brought on trouble with whites. Given equal rights, many of the African race have taken advantage of their privileges and have abused them.

It was the insolent demeanor of certain negroes which brought on the race riot in Alexandria on the 25th day of December, 1865, which resulted in the killing of one negro and the serious injury of numbers of others. This disturbance was soon quelled by the power of the military which had charge of the city at that time.

JUPITER PLUVIUS SUPREME

The rainy spell which set in several days ago continues. About ten o'clock last night the stars began to shine, and many supposed clear weather would continue. This prognostication, proved erroneous, however, and it was not long before the twinklers hid themselves and cloudy weather and more rain followed. At the dawn of today copious showers were falling with no signs of an early clear-up.

Rainy spells often occur in July. Yesterday (July 21), was the anniversary of the first battle of Bull Run, (1861), and it will be recalled that a long spell of rainy weather followed that battle, although the temperature was much lower than that which has followed St. Swithin's Day in 1919.

If our memory serves us right, the last week of July, 1870, was also rainy with an unseasonable low temperature. The weather was as cool as that of the last days of July, 1861.

St. Switin, or Swithun, who, is said to be responsible for prevailing conditions, was Bishop of Winchester, a town in Hampshire, south of England. He presided over the diocese from 852 to 862. Owing to the zeal he displayed in promoting the erection of churches, he acquired the title of the building bishop. He was noted for vast knowledge, and said to have been tutor to King Egbert's son, Ethelwulf.

St. Swithin was a man of unusual piety and humility, and died in 862 and was buried in the churchyard at Winchester, and is said to have requested that his remains be laid where passersby might tread on his grave and the rain from the eaves of the cathedral fall on it.

Tradition has it that a century after death he was canonized, and the monks intended to have his remains exhumed for the purpose of interment in the inside of the cathedral, but this transition which was to have taken place on the date of July 15, was abandoned on account of perpetual rain from that date for the space of 40 days afterward, and hence the legend!

St. Swithin's day, if thou dost rain—
For 40 days 'twill so remain;
St. Swithin's day, if thou be fair,
For 40 days 'twill rain nae mair.

8 DEAD, 15 HURT

Big Dirigible Drops From Height of 1,000 Feet in Heart of Chicago

Chicago, July 21—Eight persons were killed and fifteen injured late yesterday afternoon, when the Goodrich Tire and Rubber Company's big dirigible balloon exploded while 1,000 feet in the air and fell in flames to the top of the Central Trust and Savings Building.

The roof of the building collapsed and injured several workers on the top floor. Three pedestrians were injured when parts of the balloon fell to the street.

The balloon had been making a series of flights during the afternoon from White City, an amusement park, and had kept to an an altitude of about 1,000 feet.

Thousands of persons were watching the flight from the tower district when a small cloud of gas was seen escaping. Then there was a flash the bag turned on end and fell a mass of flames.

Among the bodies identified were Earl H. Davenport, publicity man for the White City Park, and Carl Weaver one of the mechanics with the blimp.

Five men jumped immediately after the explosion and their bodies were found horribly mangled.

ATTACK ON WOMAN

Citizens of Capitol Heights Form Man-Hunt and Negro Residents Are Terrorized.

A report reached Washington last night that a negro made an attack on a white woman yesterday afternoon at Capitol Heights, a suburb of the Capital, in Prince Georges county, Md.

According to Deputy Sheriff G. W. Roberts, the victim of the crime was a Mrs. Boynton. After his attack, which was unsuccessful, the negro is reported to have fled toward Washington. A general lookout was dispatched for him, but there was little chance of his being discovered by the police under the strained conditions in Washington.

Citizens of Capitol Heights have organized a man hunt which still is progressing, and negroes living there and in nearby places are reported terrorized.

The negro is believed to be a farm hand recently discharged from the army.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound, with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you.

BELA KUN FLEES

Szamuely and Igoe Call Out Red Guard After Overthrow of Soviets

Basle, July 22.—The Europa Press announced yesterday that Bela Kun, deposed Hungarian Soviet dictator, had fled from Budapest to Vienna.

Copenhagen, July 22.—Reports from Budapest yesterday said that in the overthrow of Bela Kun, Soviet dictator, two of the people's commissaries, Tibor Szamuely and Bela Igoe, called out the Red guard, and took possession of the important points in the city.

Vienna, July 22.—A government more tyrannical than that of Bela Kun exists in Budapest yesterday. Szamuely, one of the people's commissaries, seized control following Bela Kun's attempt to shift responsibility for his acts to a coalition government.

The White leaders of Hungary are organizing their army for cooperation with the allies in the offensive which it is expected the latter will launch against the Soviets. Numerous former officers, wearing their war decorations, are arriving in Vienna en route to Szegedin (96 miles southeast of Budapest and headquarters of the counter revolutionaries).

Hungarian secret agents are buying up copper money in Vienna, intending to melt it for the manufacture of munitions.

VETERAN BANKER DIES

Thomas Hyde, veteran banker, and one of the oldest residents of Georgetown, died yesterday morning.

Hyde, who was in his eightieth year, was actively associated with Charles C. Glover, the late George W. Riggs and W. W. Corcoran, all prominent bankers and men who laid the foundation for Washington's strong banking houses.

Beginning at the age of 15, Hyde studied the banking business assiduously, and in 1874 became a partner of Riggs, the business later becoming the Riggs National Bank. At the time of his death, Hyde was a director in that bank.

FOOD IS CURE FOR BOLSHEVISM

First Aid Treatment Splendid Medicine for Spirit of Unrest. How War Savings Stamps Help.

President Wilson has asked for food to stop the wave of Bolshevism rolling westward out of Russia. No intelligent person doubts the value of food as a first aid, but at bottom the security of our institutions rests upon the working interest the people take in those institutions.

Citizens having no interest in a government, no economic interest in the success of that government, are apt to be the first victims of vicious propaganda or unbalanced political theorists. On the other hand men and women who have invested in their government either by way of conducting private enterprise under its protection or through direct purchase of government securities have something at stake and desire to maintain stable institutions. Such persons are not necessarily reactionists. They may be quite progressive and anxious for reform where reform is needed.

Consequently the effective barrier to Bolshevism in America today is thrift and investment. The philosophy must reach into the workshops of the nation. It is reaching into those workshops and into the schoolhouses of the nation in the form of the Thrift Stamp and the War Savings Stamp.

When everybody in America is buying Thrift and War Savings Stamps as a habit one won't hear much about Bolshevism in America. It is the financial and patriotic duty of every American who loves real liberty to get the Thrift Stamp habit NOW.

HOLD WAR SECURITIES.

Eastern Business Men Issue Warning Against Parting With Government Bonds and W. S. S.

That it is a bad business proposition for any merchant to encourage holders of War Savings Stamps to exchange them for merchandise is the opinion of a group of eastern business men, who recently discussed this question at their annual convention.

"Such action merely helps fake promoters and dishonest brokers in their effort to shake public confidence in government bonds as an investment," said one of the speakers. "It is lamentable that they have worked to an alarming degree among the poor, and among ignorant people of this country."

The two hundred delegates attending the gathering were so impressed with the necessity for keeping War Savings Stamps in the hands of the original purchasers that each pledged to go back home and constitute himself the head of a vigilance committee to oppose the offering of merchandise for government securities.

ROB SAVINGS BANK

Bandits Hold up Cashier of Walkersville, Md., Institution

Frederick, Md., July 22.—Three men, two masked, entered Walkersville Savings Bank, Walkersville, near here, yesterday afternoon and held up the cashier and two clerks. At the point of revolvers they demanded all cash on the counter.

Several thousand dollars is said to have been stolen. The highwaymen escaped by auto.

CHINA'S CLAIMS UPHELD HERE.

China's right to the continued possession of the Shantung peninsula will be officially recognized by the Senate Foreign Relations Committee when the treaty is reported to the Senate.

An amendment striking from the treaty the article which attempts to transfer control of Shantung to Japan will be adopted by the committee, it was announced yesterday.

The amendment will receive the votes of the ten Republican members of the committee, including Senator McCumber, who favors ratification. The present temper of the Senate on the Shantung question would indicate that the amendment will be adopted by the Senate also.

Shantung's delegates to the Peace Conference were here yesterday. They held a long conference with Senator Lodge, chairman of the Foreign Relations Committee, to whom they expressed their extreme gratification over the strong sentiment which has been developed in the United States in favor of China and against the claims asserted by Japan.

HOUSE TO VOTE U. S. DRY TODAY

Two Important Changes Made in Bill Since Leaving Committee

The Volstead prohibition enforcement bill, with only two important changes in the form in which it was reported out by the Judiciary Committee, was brought to the point to final passage in the House last night, when a technicality forced over the final ballot until today.

Immediately after convening a roll call vote will be taken on a motion to recommit by Representative Igoe and then a record ballot on actual passage will complete the House's consideration of the measure.

The motion to recommit is certain to be defeated and final passage of the bill is assured. The Igoe proposal would strike out everything after the enacting clause and insert in lieu thereof three paragraphs drafted by the "liberals."

The principal feature of the substitute is that it is written to correspond with the wording of the Constitution prohibition amendment and does not define the term intoxicating liquor. It contains no reference to war-time prohibition.

Of the two material changes made in the bill, one was offered by the "drys" and the other came from the "liberals." Representative Barkley tightened the enforcement legislation by putting through an amendment to the search and seizure section. Under this amendment the right of search is extended to private homes wherein liquor is being sold. As the bill was originally drawn, search of this character was prohibited.

The successful "liberal" amendment was offered by Representative Gard. It strikes out of the bill Section 21. which would have empowered judges to require of persons convicted of violating the prohibition law a bond that they would not repeat the violation within one year. In cases where the defendant could not give bond, a jail sentence of six months would have been provided.

AUSTRIA GIVEN TERMS

New Clauses Ask Reparation Similar to German Exactions.

Paris, July 22.—The full peace conditions of the Allied and associated Powers are now in the hands of the Austrians. The first sections of the terms were presented to the Austrian delegates at St. Germain on June 2; the final sections were delivered to them at the same place today without ceremony by M. Dutasta, secretary general of the Peace Conference

The terms comprise the whole treaty which Austria is asked to sign including the reparation, financial, military and certain other minor clauses which were not ready for presentation when the official ceremony took place.

In an accompanying memorandum 15 days granted to the Austrians in which to make their final observations, although they have already submitted a large number of notes on the terms previously submitted to them.

In addition to the published summary of the terms of June 2, the new clauses provide for reparation arrangements very similar to those in the treaty with Germany, including the establishment of an Austrian subsection of the reparations commission, payment of a reasonable sum in gold, the issuing of bonds and the delivery of live-stock and certain historical and art documents.

The financial terms provide that the Austrian pre-war debt shall be apportioned among the various former parts of Austria and that the Austrian coinage and war bonds circulating in the separated territory shall be taken up by the new Governments and redeemed as they see fit.

Paragraph 5, relating to the military, says the Austrian Army shall not exceed 30,000 men, including officers and depot troops.

FLOOD BRITISH MINES

Pump Men Leave Posts With Other Strikers in Yorkshire

London, July 22.—Three mines in the Yorkshire district are flooded and twelve others are likely to be filled with water in a day or two, Premier Lloyd George announced yesterday in the house of commons, as a result of the pump men's strike Some of the mines, he said, would be ruined. The government is sending men from the fleet to aid in pumping out the mines.

Mr. Lloyd George said the last 24 hours had witnessed grave and unprecedented developments in the miner's strike. He said the Yorkshire miners had called out the pump men and engineers and that many mines in that district were suffering loss from the rising water and were threatened with destruction.

At 58 mines, he said, the necessary men were at work, but that in 85 mines pumping had been stopped entirely. Mine officials, he added, continued the pumping at 35 mines after the men left.

FIND SALOONKEEPER DEAD

Philadelphian Worried by War-Time Prohibition

Philadelphia, July 22.—Thomas Scully, a saloonkeeper, of 4970 Lancaster avenue, was found dead on a grave in Holy Cross Cemetery, at Yeadon. He was 53 years old and had been absent from home for nearly a week. Scully had been despondent for several weeks past.

Business troubles are said by the police to have been the direct cause of Scully's death. When wartime prohibition became effective he worried considerably.

THRIFTY HOUSEWIFE MAY HAVE LUXURIES

War Savings Stamps Furnish An Easy Way to Obtain Money for Conveniences.

Although a family may not be wealthy enough for the "lady of the house" to have all the little conveniences she wants, through Thrift and War Savings Stamps the government has provided a way for the housewife to fit up her kitchen, paint the house, furnish her spare room or embellish the parlor.

These women who were so wise as to begin saving systematically early in 1918 have nice little sums invested in War Savings Stamps by this time. Eleven War Savings Stamps, some of which cost as little as $4.12 apiece, will buy a first-class kitchen cabinet. In many instances, the housewife would not have saved anything to speak of, had it not been for the War Savings Stamps.

Women are quick to grasp the benefits from habits of thrift. Numerous reports have been received at district headquarters of the War Loan Organization of the Fifth Federal Reserve District of women who have started in by putting quarters in Thrift Stamps and who have been enabled to buy desired articles to brighten their homes.

As soon as a War Savings Stamp is bought, it begins earning more money. War Savings Stamps are practically ready money. They are redeemable with accrued interest at the post office on ten days' notice, but the longer they are held, the more money they make for their holders.

EASY START TOWARD SUCCESS FURNISHED

When a man gets $1,000 saved up there are always opportunities for a good investment. It is hard to place much less than that. That is what healthy men who are self-made advise young men to begin early and save the first thousand.

Until we went to war, it was hard to get started toward that $1,000 unless at least one dollar could be put away at a time. Small change was restless and acrobatic and kept jumping out of our pockets into someone else's.

Now, however, there is an easy way to get that first thousand. The answer is Thrift Stamps. They cost only a quarter apiece and can be converted into War Savings Stamps. The government of the United States backs these War Savings Stamps with a guarantee of 4 per cent. interest, compounded quarterly. Save and succeed.

AS PERMANENT INVESTMENT

Secretary of Treasury Glass Shows Values of War Savings and Asks for Co-operation.

Secretary Glass, in a recent interview given at Washington, discussed War Stamps as a permanent investment as follows:

"WAR Savings Stamps afford an excellent vehicle for increasing capital and earning power. Many persons have not taken the War Savings Stamps seriously as an investment but the fact that they may be bought in as large a quantity as $1,000 face value during 1919, at such favorable interest return, makes them most desirable for the average man or family.

"Definite plans for the continuance of the issue in coming years of small Government securities are being worked out.

"Although War Savings Stamps sales this year do not approach the high marks made under stimulation of war need last year, their absorption by the public thus far has been satisfactory.

Savings in all channels shrank during the early months of the year, and it is expected that War Savings Stamp sales, along with postal savings and savings bank deposits, will grow steadily throughout the year.

"Co-operation is sought earnestly in the matter of keeping Thrift and War Savings Stamps on sale, so that no one so inclined may fail to have opportunity to invest his money wisely."

Today is that tomorrow you thought about yesterday—Buy W. S. S. now.

Spend wisely—invest judiciously—and you will have plentifully.

MANY SECRET ORDERS ORGANIZE FOR THRIFT

More Than Sixteen Hundred Lodges With Thousands of Members Working to Make Thrift a Happy Habit.

Thrift, as a movemnet of the United States Treasury Department, has been indorsed by more than sixteen hundred lodges of fraternal orders in the Fifth Federal Reserve District According to figures given out today by the War Loan Organization of the District, these lodges have more than one hundred and thirty-six thousand members, and not only are all these members urged to join War Savings Societies, but many lodges are investing their Treasury funds in War Savings Stamps.

Some three hundred lodges, with a membership exceeding thirty-four thousand, are forming societies in Maryland. Among the orders represented there are the Knights of Pythias, Shield of Honor, Maccabees Red Men, Knights of the Golden Eagle, Woodmen of the World and Knights of Columbus.

In Virginia the Woodmen of America are heartily co-operating in the thrift tmovement. Their two hundred and ten lodges with a membership of seven thousand four hundred and thirty-five, are organizing War Savings Societies. In North Carolina nearly seven hundred lodges are actively supporting the campaign. These total a membership of about sixty-nine thousand, representing the Sons and Daughters of Liberty, the Independent Order of Odd Fellows and the Junior Order of United American Mechanics

Valuable aid is being lent in South Carolina by the Knights of Pythias the Red Men and the Odd Fellows, the three orders having more than three hundred lodges in the State, with a membership in excess of twelve thousand. Co-operation of all lodges in the distrtict is urged. Since many of the most prominent and influential men in every community are lodge members, it is partcularly desired to have the fraternal Orders behind the saving movement.

FARMERS TURN SALES INTO SAVING STAMPS

Odd Crops of Great Aid to Thrifty Tillers of Soil in This District.

Farmers who are making a habit of getting a few Thrift Stamps every time they market anything from their farms are finding that they are able to save regulaly and that they do not miss the small amounts invested. The average farmer in this section of the country depends largely on his "money" crop, which he harvests once a year. Almost every one of them, however, grows something else which he markets at odd times.

An occasional load of hay may be taken into town and sold. The thrifty farmers also plant peas, beans, okra, lettuce, beets or some of the other vegetables which thrive in the South and for which there is a ready market Butter and eggs form staple articles to be marketed between seasons.

By buying just a few Thrift Stamps each time the farm wagon makes a haul to town, the farmer or his wife is providng a fund which they will be able to turn to good account later on, for when these Thrift Stamps are exchanged for War Savings Stamp, they increase in value automatically, and may always be turned into cash on ten days' written notice to the postmaster, although the longer they are kept the more they earn.

Wealth is seldom the result of luck but of system. Save regularly. Buy W. S. S.

Treat your pocketbook with the same consideration as you would your best friend. Investment in War Savings Stamps makes the the stronger.

The cornerstone of tomorrow's success is founded upon today's thrift. Any postman can lay the cornerstone for you with War Savings Stamps.

You never miss the first dollar out of your pocketbook. Keep it for yourself. Buy Thrift Stamps.

Have you bought your Thrift Stamp today?

DROUTH CAUSES STRIKES

Chicago Labor Leader Claims Prohibition is to Blame for Unrest

Chicago, July 22.—Prohibition is one of the main causes of the labor unrest in Chicago, according to President Fitzpatrick of the Chicago Federation of Labor.

"It is folly," said Mr. Fitzpatrick in an address yesterday, "to believe that wage disputes are solely responsible for these strikes in Chicago. I believe much of the blame can be laid at the door of the reform wave.

"Many of the workers here, beer and light wines having been denied them, feel that more of their rights are about to be taken. They are not pleased when they know they can have no alcoholic beverages while the wealthy have their cellars full. As a result they are more eager to strike. The resentment provoked by this invasion of personal liberty provokes acts that do not directly reveal their source."

PRESIDENT IS INDISPOSED

Is Ordered to Bed By Phisician After Returning From Cruise

President Wilson returned to Washington early yesterday from a weekend cruise to Hampton Roads and was immediately ordered to bed by his personal physician, Rear Admiral Cary T. Grayson, who announced that the President was suffering with dysentery.

Admiral Grayson said the President's condition was not serious, but that he probably would be unable to receive callers before the end of the week.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Says Nothing Like Plain Argo-Phosphate to Put on Firm, Solid, Stay There Flesh and Muscle and Increase strength, Vim, Vigor and Nerve Force.

Physicians claim there is nothing that will increase weight, strength and endurance like organic phosphate commonly known by druggists as argo phosphate, it is inexpensive and is sold by all leading druggists everywhere under a guarantee to give satisfaction or money refunded. Weakness and thinness are usually due to starved nervous conditions.

Our bodies need more phosphates than are contained in the foods we eat.

If you wish a more rounded figure and plump well-developed arms, neck and bust in place of hollows you should simply take plain argo-phosphate as it builds up and restores run-down nervous conditions by phosphatizing the system. It transforms the appearance and an increase in weight is often times quickly produced.

The increase in weight also aids in improving the general health. Sleeplessness, nervousness, lack of energy and ambition quickly disappear.

Pale cheeks are changed to rosy ones and dull eyes become bright.

Miss Lena Brown of Atlanta, Ga., who only weighed 90 pounds reports that she gained 10 pounds in two weeks time and says argo-phosphate has made a different person of her and she never felt better in her life.

Special Notice—Owing to the fact so many physicians and druggists are recommending argo-phosphate for relieving all nervous, worn-out debilitated conditions and the unusually will be found in the market numerous substitutes for the genuine article. All imitations are inferior preparations and owing to its unusual flesh producing qualities it should not be used by any one unless they desire to put on flesh and increase in weight.

ENGINEERS JOIN STRIKE

Break off Negotiations With Owners And Shipping Board

New York, July 22.—The marine engineers yesterday broke off negotiations with the United States Shipping Board and the American Steamship Association. Their national president, W. C. Brown, issued an order to enforce the wage and working rules demands made May 21, which have not been acted upon.

This virtually brings the engineers into the strike of the firemen, water tenders, oilers, cooks and stewards, which for the past twelve days has tied up shipping on the Atlantic and Gulf Coasts.

The engineers, however, will nob be taken off the vessels, according to Thomas Delahanty, secretary of the Marine Engineers' Beneficial Association, at least while the firemen are out.

As the ships cannot be operated without the firemen and other strikers it is deemed unnecessary, he said, to withdraw the engineers. Should the Shipping Board and steamship association settle with the striking workers, Delahanty said, the engineers would walk out and would expect the support from the firemen which the engineers now are giving them.

The union engineers have been instructed not to sail on ships carrying strikebreakers or to do work of firemen, water tenders, or oilers.

More Than Fifty Bolshevists Mysteriously Stabbed to Death

Copenhagen, July 22.—A new anti Bolshevist conspiracy, working with terrorist methods, is setting all Southern Russia aflame.

Moving with baffling mystery and precision, the ploteers are carrying on a sanguinary campaign of vengeance against the Soviets.

In the provinces of Orel, Kursk and Voronozh, more than 50 prominent Bolshevists have been mysteriously murdered. Among them was the former secretary to Premier Lenine. All were killed at night time when alone outdoors. All were stabbed in the back.

The campaign is attributed to religious maniacs who have vowed the extermination of Bolshevism. The central Soviet at Moscow has offered 500,000 rules reward for the identification of the murderers.

STRING OF NEW RELATIONS

Bride of 16 Has Three Stepsons and Nine Step-Grandchildren

Baltimore, July 22.—Miss Elsie Weber, just 16, calmly and lightheartedly became step-grandmother to nine children of varying ages and stepmother of three others, each quite old enough to be her parent, Sunday afternoon, when she married William H. Rosenberger, who is just four times her age and three years more.

The bride, gowned in white chiffon, walked to the altar carrying a bouquet of carnations, and not a shadow of misgiving crossed her face as she repeated the ceremony at the home of the bride's sister, Mrs. Edwin Hylock. None of the groom's children or grandchildren was present, as they opposed the match.

Mr. Rosenberger and Miss Weber met three years ago, after the death of Mr. Rosenberger's first wife, and though the bride was then only 13, Rosenberger says it was love at first sight. He has a country home down in West Virginia, but they will live here, as his wife does not care for the country. One of Mr. Rosenberg's sons, is a politician in Pennsylvania, while the other is a Methodist minister.

ADMITS THEFT

Norfolk, Va., July 22.—Harry Kirk, under arrest charged with a series of robberies here, has confessed to Detective Patrick O'Brien, of the Washington police department, the commission of robberies in the Capital, O'Brien says. O'Brien came here and identified Kirk.

Kirk, O'Brien said, balked when the detective produced a long list of articles that the Capital police say he stole.

"I got away with a lot of stuff in Washington, but not half as much as your list charges me with. The stuff you say I stole in Washington is worth, the way I figure it, about $20,000, and, as a matter of fact, I don't think the goods I got away with would total more than $5,000 or $6,000, and part of that amount represented collateral that I could not very well realize on."

REPORT VERIFIES TALES

Four U. S. Officers and Five Sergeants Court-Martialed in France

Four Amercian officers and five sergeants were court-martialed and punished in France on charges of cruelly beating, failing to return property taken away from, and otherwise inhumanly dealing with, their own soldiers in France.

The facts as to the maltreatment of soldeirs have been sent from Europe from time to time but could not be verified from the records in Washington. The impressions thrown out by high officers here that the stories were inconceivable. Dallinger took the matter up in Congress. On the heels of this, the War Department has just received a report made by Col. J. L. Kincaid, of the Twenty-seventh Division (New York) which he sent while in Europe to General Pershing.

THEATRES

GRAND THEATRE

There is plenty of action in "The Adventure Shop," the Vitagraph Blue Ribbon Feature, which will be seen in the Grand Theatre tonight. Among the big scenes is a duel, a raid and a thrilling fight and the cutting of a deck of cards with the life of a girl the stake. These events transpire incident to the visit of a rich youth to New York seeking adventure. A group of society young folk have organized the The Adventure Shop to furnish excitement, and the youth is the first victim of their plots. He is game, however, and drives them to desperate ends to cover up their schemes, but they finally are unmasked.

Corinne Griffith has the featured role in the picture, supported by a cast of exceptional strength. The scenario is adapted from "The Green Gullabaloo," by Bud Fisher, creator of "Mutt and Jeff." Also Warren Kerrigan in "Call of the Tropics."

RICHMOND THEATRE

In "When Fate Decides," a William Fox production, announced to be seen at the Richmond Theatre tonight, the famous star, Madlaine Traverse, is said to do the best work of her career. Reports from towns where the play has been presented indicate that it is exceptionally strong in dramatic interest and also that the gowns worn by Miss Traverse continue to prove she is "the best dressed women of the screen." Apparently these gowns alone will make a visit to the Richmond Theatre worth while for many a woman, yet they are merely incidental to the star's emotional ability as an actress.

INGOMAR—Wm. S. Hart

William S. Hart, the popular Thomas H. Ince star in Artcraft pictures, will be seen in "Branding Broadway," at the Ingomar Theatre tonight.

Mr. Hart is a cowboy in this picture who accepts a job to keep the ne'er-do-well son of a New York millionaire out of mischief. "Big Bill" has a big contract on his hands, but he carries it through sucessfully, after meeting thrilling and unusual adventures.

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.

NOW IS THE TIME

To Build Up Permanently. Nature at Its Best as an Aid.

If you who are weak, nervous and run down from over-work, worry of any other cause would only realize that the summer months is the time to build up strength and vigor there would not be so many collapses and rushing for aid during the winter.

The plan to follow is simple: plenty of rest and good wholesome food along with a strength-creating body- building tonic, Chasco-Vin with its Iron, Manganese, Hypophosphites, Nux and other strength making ingredients, is the tonic we suggest.

If you follow this plan carefully you will notice a wonderful improvement in two weeks time. But don't give up too soon.

The Local agent for Chasco-Vin is Edgar Warfield, Jr., King and Pitt Streets.
